

2016: Off to the Races

We are excited about 2016 and looking forward to a number of good things. It will be a fast-paced year as our firm is both expanding and preparing to deliver even more PRISM^(SM) Services. We are excited that so many of our clients are looking forward to 2016 being a good year, too. We enjoy being your partner in creating profitable growth. As we head into 2016 together, we have two short messages to share:

First - We Are Growing

Many of you have worked with our talented staff members, Marina Antonishin and Richard Kvorka; they have both been promoted to the position of Tax Manager which expands our management team. Also joining Team THG, we welcome two new senior accountants to our firm. In addition, we continue our on-going commitment to mentoring interns and welcome five of them into daily THG operations this quarter. We will provide them with invaluable real-world experience and insights about working with a growth-oriented entrepreneurial firm.

Then - We Remind You to Be Vigilant

Cyber crime and identity theft are growth industries. We all have to re-double our efforts to be prepared for what this means in our personal and professional lives. Please give these articles a quick read and then consider the "extra steps" you can take to protect yourself and your business.

IRS Bulletin - [How New Security Safeguards will Affect You for 2016](#)

Last fall we introduced you to [Undo Identity Theft](#) and their services. We believe the ideas they overview in their article "[Creating the Risk Aware Organization](#)" are sound ones that you should act on.

Please [contact us](#) if we can help you to be better prepared to capitalize on a successful 2016.
